REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

Claims 1, 2 and 6-8 are allowable over the prior art because the prior art does not disclose or suggest: an integrated circuit sensor unit that includes a sensor signal processing unit that processes a sensed signal using adjustable coefficient values stored in a memory device, to provide a sensor output signal on a output line indicative of a measurement variable, wherein the integrated circuit sensor unit receives updated adjustable coefficient values via the output line and stores the updated adjustable coefficient values in the memory device.

Claims 3 and 9 are allowable over the prior art because the prior art does not disclose or suggest: an integrated circuit sensor unit that receives power via a first line and includes a sensor signal processing unit that processes a sensed signal using adjustable coefficient values stored in a memory device, to provide a sensor output signal on a second line indicative of a measurement variable, wherein the integrated circuit sensor unit receives updated adjustable coefficient values via the first line and stores the updated adjustable coefficient values in the memory device.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
